Objective

Final-year **B.Tech Computer Science (CSE)** student with hands-on experience in developing **AI-powered applications, real-time communication systems, and responsive web solutions**. Strong foundation in **software development, scalable system design, and problem-solving**, with practical industry exposure. Seeking a software development role to contribute to innovative, high-impact projects while continuously enhancing technical expertise and professional growth

TECHNICAL SKILL

- ❖ **Language** HTML, CSS, JavaScript, Java
- ❖ **Framework**- React.js, Tailwind CSS, Bootstraps, Nodejs,
- ❖ **Databases**-MySQL, MongoDB
- ❖ **Tool**- Git, Github, Canva, VS Code, MS Word, Excel

Education

- ❖ Computer Science and Engineering | NITRA Technical Campus Ghaziabad 11/2022 – 07/2026
- ❖ XII (CBSE) | St. Kamal Children Senior Secondary School Jahangir Ganj
71.33% | 2022
- ❖ X (CBSE) | St. Kamal Children Senior Secondary School Jahangir Ganj
81.33% | 2020

PROJECT

RAG-Based AI Assistant

- Designed and implemented a **RAG-based AI system** using LangChain and FAISS to perform semantic search and generate context-aware responses from custom knowledge sources, building a scalable full-stack application with React.js, Node.js, Express.js, and RESTful API integration.

Video Conferencing & Live Chat Application

- Developed a real-time video conferencing and instant messaging application using **WebRTC and Socket.io**, leveraging **React.js, Node.js, Express.js, Tailwind CSS, Material UI, and Axios** to deliver low-latency communication, scalable backend architecture, and responsive cross-platform user experience.

Portfolio & Spotify Replica Website

- Developed responsive front-end web applications (Personal Portfolio & Spotify replica) using **React.js, Tailwind CSS, HTML, CSS, and JavaScript**.
- Implemented interactive UI components, dynamic rendering, and responsive layouts to enhance user engagement, performance, and accessibility.

Professional Experience

Business Development Executive (BDE) | Onsite | Sept 2025 – Feb 2026

- Worked as a **Business Development Executive**, handling lead generation, client communication, and business growth initiatives.
- Contributed to **graphic design and frontend development tasks**, creating marketing creatives and implementing UI updates using modern web technologies.

Full Stack Developer Intern (Virtual) | CodeC | 1 Month

- Completed a one-month virtual internship, working on full-stack development projects involving frontend and backend technologies.
- Developed and integrated web application features using modern frameworks, improving functionality and user experience.
